

Issues:

Military/civilian shift and resource requirements and civilian deployment.

Recommendations:

1. Don't stop filling MAPL position until funding is provided for emergency essential civilian positions and they are filled.
2. Convert portion of current civilian positions to emergency essential positions.
3. Look at force structure rebalancing.

Strategy/Resource Plan:

1. See RC Quad Chart
2. DACM/ASC/HRC
3. ASC/AMC/G-1 (EECP standard program)
4. DACM/AMC Futures G-3/NGB/OCAR/ACA

Timeline/Deliverables:

1. Relook MAPL deletion in six months.
2. Standardized EECP program by summer of 2005.
3. Relook force structure rebalancing by summer 2005.

2004 Acquisition Senior Leaders' Conference

Supporting the Fight, Improving the Force, Building the Future

Issues:

Must address and plan for conduct of restoration and stability operations as a core Army competency and across full spectrum.

Recommendations:

1. Conduct internal AAR (HQDA/ASA(ALT)) w/key AAC leaders who supported Iraqi reconstruction/restorative stability operations to include construction & non-construction programs.
2. Conduct follow-on external AAR with tactical and operational commanders who supported Iraqi reconstructive/restorative stability operations.
3. Develop joint (multi-agency) doctrine and joint operational concepts for "modular" nation-building/reconstruction capacity based on the agency's core competencies.

Strategy/Resource Plan:

1. Task DASA (P&P) staff to conduct/facilitate the AAR and provide recommendations.

Timeline/Deliverables:

4. Create restoration/stability ops module for war planning.
1. Collect virtual AKO AAR by mid-Dec 04 (prior to holiday).

Issues:

Role of the RC to support modularity concept:
RC units?
IMA pyramid program for AR

Recommendations:

1. Give RC the mission for AL&T modularity force structure.
2. Look at force structure rebalancing.
3. Design RC ALT units.
4. Create IMA pyramid program.
5. Recommend forming RC expectation w/in AL&T modularity.
6. Look at RC capabilities (51-
O, A, R, T)

Strategy/Resource Plan:

NGB/OCAR/AAE/Army G-3/RC
ASA(ALT) members.

Timeline/Deliverables:

1. Concept for RC modular force structure w/in 60/90 days.
2. IMA pyramid program target date by summer 05.
3. Get RC expectations to RC by mid-Sep 04.

Issues:	Recommendations:
<p>AL&T MOA:</p> <p>When AL&T deployed, who is in charge?</p> <p>When not deployed, who is in charge for AL&T single dollar resource point under AL&T?</p>	<ol style="list-style-type: none"> 1. AMC & ASA(ALT) dual command presence at the deputy commander level during deployed and non-deployed AL&T construct. 2. Define Life Cycle Manager. 3. PM/Life Cycle Manager is the single dollar resource point (to include sustainment).
Strategy/Resource Plan:	Timeline/Deliverables:
<ol style="list-style-type: none"> 1. AMC Commander, Dual DCG's 2. AAE/AMC Commander, DCG's 	<ol style="list-style-type: none"> 1. Feedback from Command Group by 1 Oct 04. 2. Feedback from Command Group by 1 Nov 04.
